# GPCI 2023 - Financial Centers

世界の都市総合力ランキング 2023 - 金融センター

What is the GPCI - Financial Centers | 世界の都市総合力ランキング - 金融センターとは

With the rapid expansion and internationalization of the financial industry, competition between cities has intensified, and the importance of implementing measures to maintain or enhance their status as financial centers has grown significantly. Therefore, in the Global Power City Index - Financial Centers (GPCI-Financial Centers), we evaluate the competitiveness of cities as international financial centers from a multifaceted perspective by adding a "Finance" function to the six functions of the Global Power City Index (Economy, Research and Development, Cultural Interaction,

Livability, Environment, and Accessibility). This allows us to uncover the characteristics, strengths, and weaknesses of each city as an international financial center within the global financial system and rank them. We hope that GPCI-Financial Centers will be utilized as an important tool by professionals in the financial industry, policymakers, and investors.

**金** 融業界の急速な拡大と国際化に伴い、都市間の競争が激化し、国際的な金融センターとしての地位を維持または向上させるための施策の重要性がますます高まっている。そこで、

GPCI-Financial Centers (世界の都市総合力ランキング - 金融センター) では、グローバルな金融システムの中で各都市が有する国際金融センターとしての特徴や強み・弱みを明らかにするために、世界の都市総合力ランキング (GPCI) の6分野 (経済、研究・開発、文化・交流、居住、環境、交通・アクセス) に、「金融」分野を加えた合計7分野で、国際金融センターとしての競争力を複眼的に評価し、順位付けしている。GPCI-Financial Centersが、金融業界のプロフェッショナルや政策立案者、投資家にとって重要なツールとして活用されることを期待したい。

Methodology | 調査手法

By adding the 4 indicator groups which comprise a total of 14 indicators to the GPCI's 70 indicators, a total of 84 indicators in seven functions were selected as factors to evaluate the strength of the financial function. The scores for each indicator within the Finance function were averaged to create scores for indicator groups, and these scores were then combined to generate

function specific rankings. The GPCI-Financial Centers Comprehensive Ranking was created by adding the Finance function scores to the GPCI scores for the six functions. The target cities were the same as the 48 cities covered by the GPCI.

**G** PCIの6分野70指標に、金融分野の力を評価する要素として、4指標グループ14

指標を加えることで、合計7分野84指標を選定した。金融分野の各指標をスコア化し平均化したものを指標グループのスコアとして、さらにそれらを合算して金融分野別ランキングを作成した。GPCI-Financial Centers総合ランキングは、GPCIの6分野のスコアに金融分野のスコアを合算し作成した。対象都市は、GPCI対象48都市と同様とした。

By adding the financial function to the six functions of evaluation in the Global Power City Index (GPCI) that assess the overall strength of cities, it evaluates both the overall strength of the city and its specialized financial strength in a multifaceted manner.

都市の総合力を評価しているGPCIの6分野に金融分野を加えることで、都市の総合力および金融に特化した力の両面を複眼的に評価している。

## Finance Function Indicators | 金融分野の指標一覧

| Function 分野 | Indicator Group 指標グループ                                  | ID | Indicator 指標   | Definition 定義  |
|-------------|---|----|--|--|
| 金融<br>全市場   | Financial Instruments Markets<br>金融商品市場                 | 71 | Stock Market Capitalization<br>上場株式時価総額*                   | Aggregate domestic market capitalization for the stock exchanges located in the target city from World Federation of Exchanges' "Domestic Market Capitalization".<br>World Federation of Exchangesの"Domestic Market Capitalization"における対象都市に立地する取引所の国内時価総額。  |

## Finance Function Ranking | 金融分野ランキング

In the Finance function, New York secured the top position, followed by London in second place, creating a significant gap with cities ranked below them. New York received high praise across all indicators, including “Financial Instruments Markets,” “Financial Intermediaries,” “Foreign Exchange and Interest Rate Markets,” and “Highly-Skilled Personnel.” It claimed the first position in four specific indicators: *Stock Market Capitalization*, *Stock Market Trading Value*, *World’s Top Asset Managers*, and *International Law Firm Offices*. London, on the other hand, ranked first in “Foreign Exchange and Interest Rate Markets” as well as “Highly-Skilled Personnel.”

Following the top two cities, Asian cities such as Tokyo (#3), Beijing (#4), Shanghai (#5), and Hong Kong (#6) also secured top positions. Tokyo excels in “Financial Intermediaries,” particularly ranking first in two indicators: *World’s Top Insurance Company Headquarters* and *World’s Top Pension Funds*. Beijing, Shanghai, and Hong Kong each have their unique strengths, with Beijing excelling in “Financial Intermediaries,” Shanghai in “Financial Instruments Markets,” and Hong Kong in “Foreign Exchange and Interest Rate Markets.”

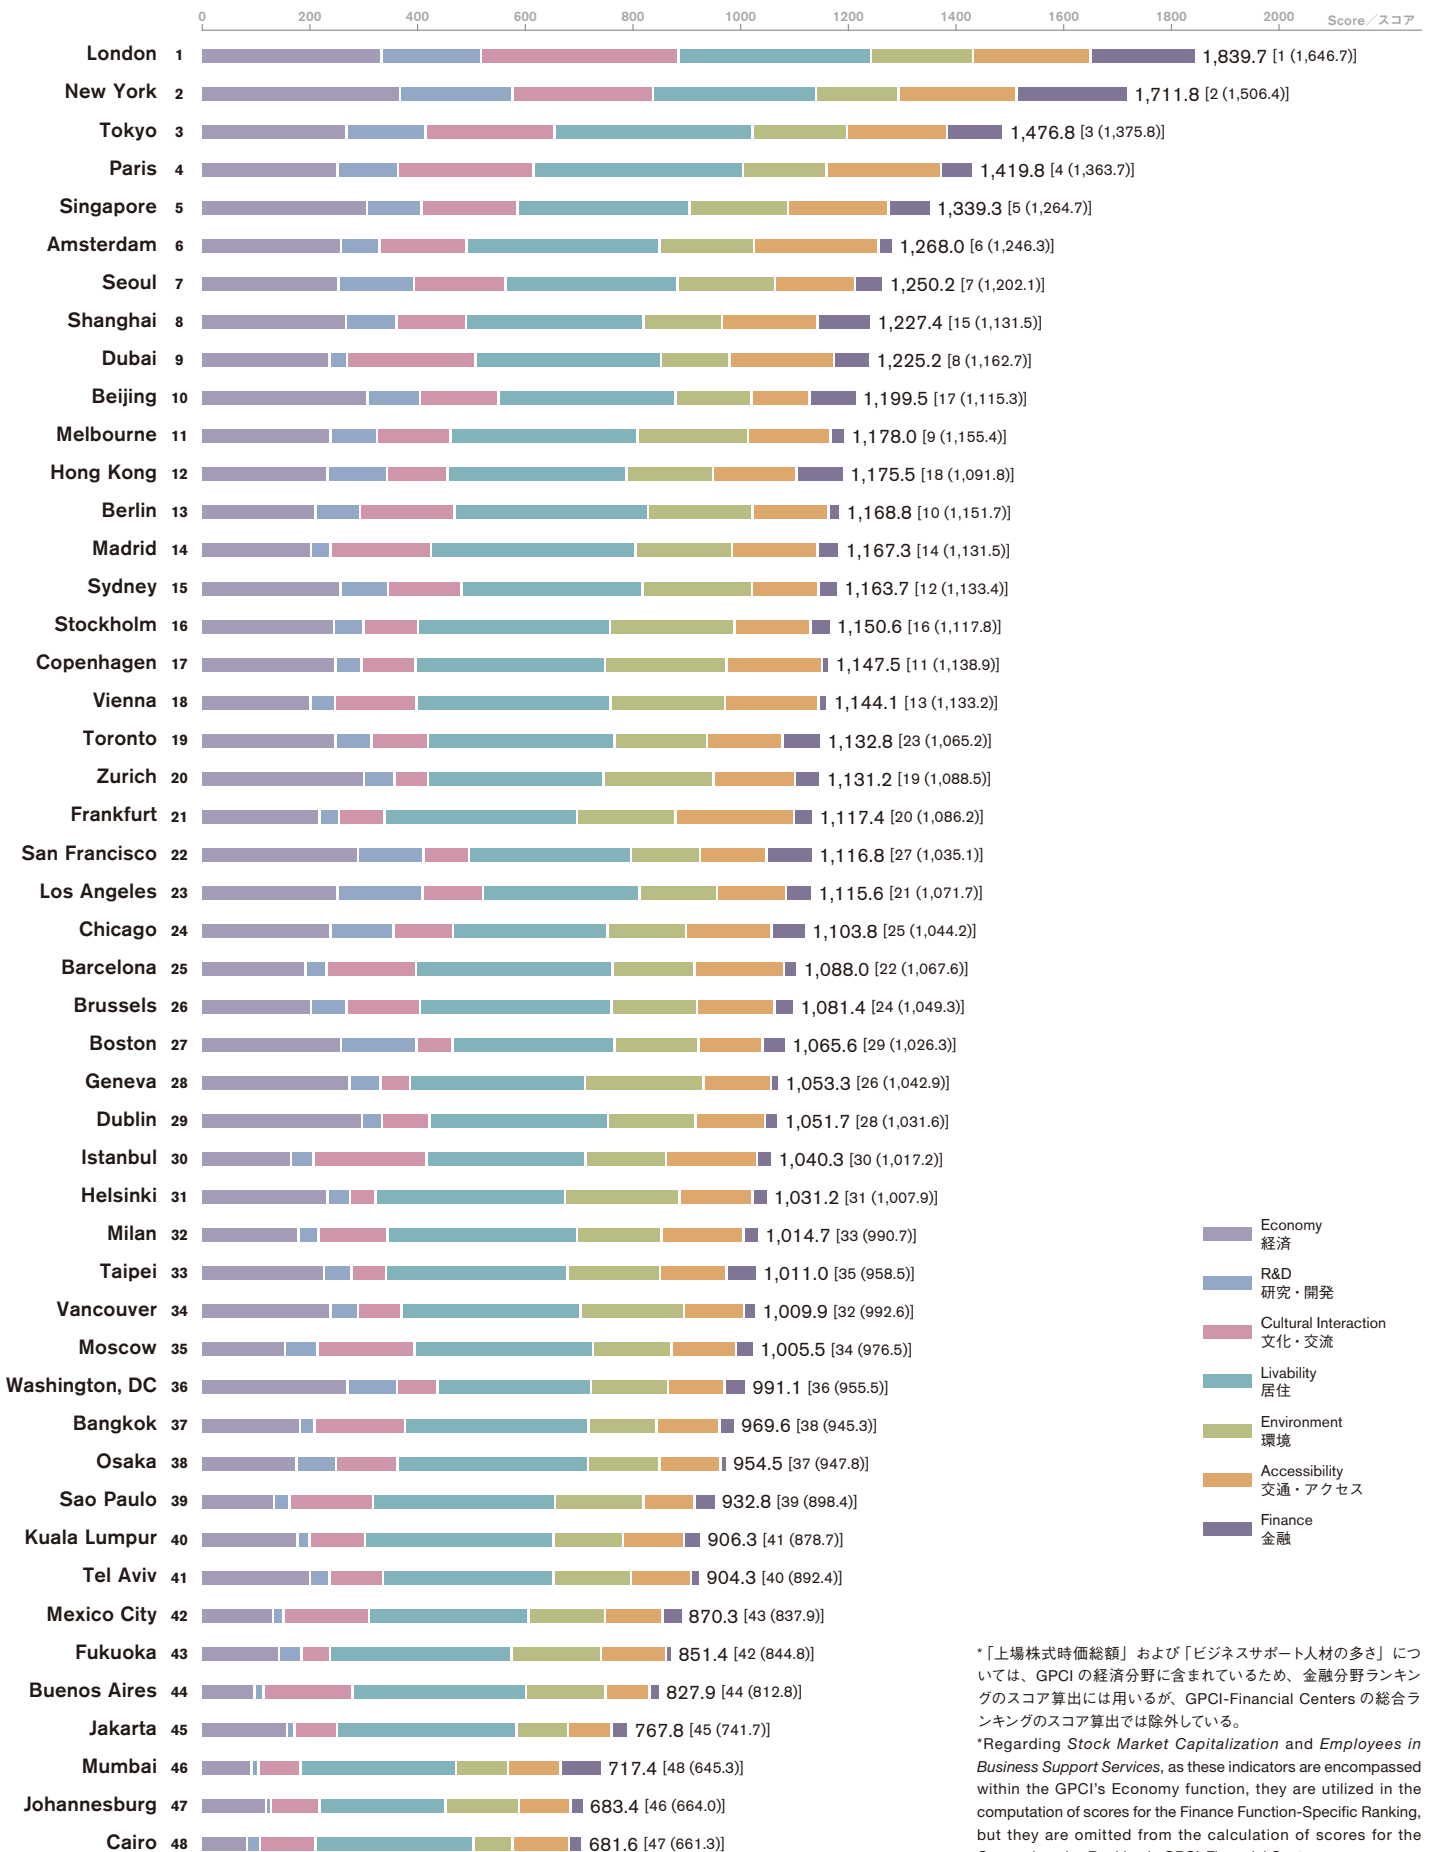

**金** 融分野では、1位のニューヨークと2位のロンドンが3位以下の都市を大きく引き離す結果となった。ニューヨークは『金融商品市場』、『金融仲介機能』、『外国為替・金利市場』、『高度専門人材』の全ての指標グループにおいて高評価を得ており、なかでも「上場株式時価総額」、「株式市場売買代金」、「世界トップアセットマネージャー」、「国際弁護士事務所」の4指標は1位を獲得している。ロンドンは『外国為替・金利市場』および『高度専門人材』で1位を獲得した。

トップ2都市に続き、東京、北京、上海、香港のアジア都市が上位に入った。3位の東京は『金融仲介機能』が強みであり、特に「大手保険会社本店」、「世界トップ年金ファンド」の2指標でトップとなった。4位の北京、5位の上海、6位の香港はそれぞれ強みが異なっており、北京は『金融仲介機能』、上海は『金融商品市場』、香港は『外国為替・金利市場』が強みである。

Comprehensive Ranking (GPCI-2023 + Finance Function) | 総合ランキング (GPCI-2023 + 金融分野)

Numbers in [ ] are ranks and scores from the GPCI-2023  
[ ]内の数値はGPCI-2023の順位とスコア

\*「上場株式時価総額」および「ビジネスサポート人材の多さ」については、GPCIの経済分野に含まれているため、金融分野ランキングのスコア算出には用いるが、GPCI-Financial Centersの総合ランキングのスコア算出では除外している。  
\*Regarding Stock Market Capitalization and Employees in Business Support Services, as these indicators are encompassed within the GPCI's Economy function, they are utilized in the computation of scores for the Finance Function-Specific Ranking, but they are omitted from the calculation of scores for the Comprehensive Ranking in GPCI-Financial Centers.

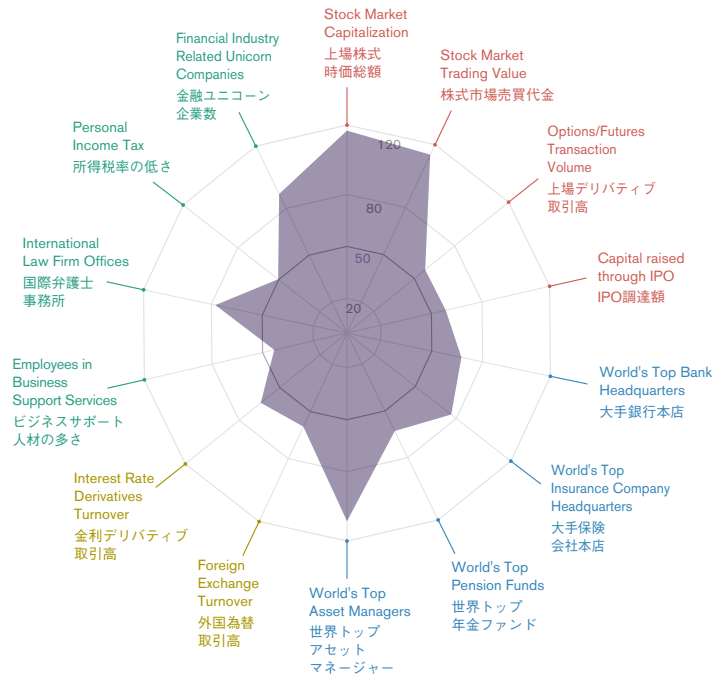

## New York

\*The graph shows deviation scores \* グラフの形は偏差値を表す

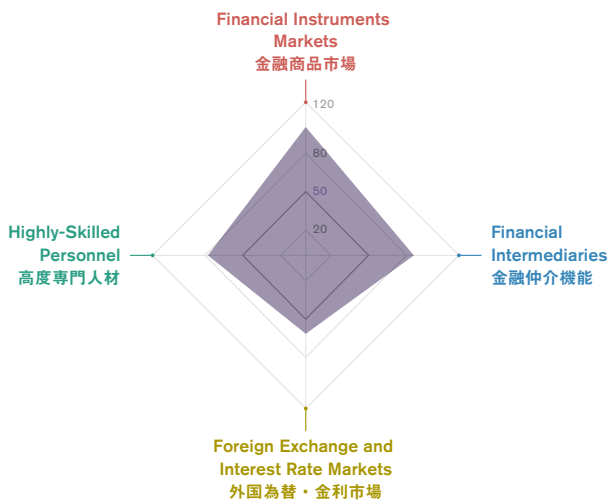

New York secured the first position in four specific indicators: *Stock Market Capitalization*, *Stock Market Trading Value*, *World's Top Asset Managers*, and *International Law Firm Offices*.

ニューヨークは「上場株式時価総額」、「株式市場売買代金」、「世界トップアセットマネージャー」、「国際弁護士事務所」の4指標で1位を獲得している。
