

GPCI 2024 - Financial Centers

世界の都市総合カランキング 2024 - 金融センター

What is the GPCI -Financial Centers |世界の都市総合カランキング - 金融センターとは

ith the rapid expansion and internationalization of the financial industry, competition between cities has intensified, and the importance of implementing measures to maintain or enhance their status as financial centers has grown significantly. Therefore, in the Global Power City Index - Financial Centers (GPCI-Financial Centers), we evaluate the competitiveness of cities as international financial centers from a multifaceted perspective by adding a "Finance" function to the six functions of the Global Power City Index (Economy, Research and Development, Cultural Interac-

tion, Livability, Environment, and Accessibility). This allows us to uncover the characteristics, strengths, and weaknesses of each city as an international financial center within the global financial system and rank them. We hope that GPCI-Financial Centers will be utilized as an important tool by professionals in the financial industry, policymakers, and investors.

・ 融業界の急速な拡大と国際化に伴い、都 市間の競争が激化し、国際的な金融センターとしての地位を維持または向上させるため の施策の重要性がますます高まっている。そこで、

GPCI-Financial Centers(世界の都市総合カランキング - 金融センター)では、グローバルな金融システムの中で各都市が有する国際金融センターとしての特徴や強み・弱みを明らかにするために、世界の都市総合カランキング(GPCI)の6分野(経済、研究・開発、文化・交流、居住、環境、交通・アクセス)に、「金融」分野を加えた合計7分野で、国際金融センターとしての競争力を複眼的に評価し、順位付けしている。GPCI-Financial Centersが、金融業界のプロフェッショナルや政策立案者、投資家にとって重要なツールとして活用されることを期待したい。

Methodology | 調査手法

B y adding the 4 indicator groups which comprise a total of 14 indicators to the GPCI's 70 indicators, a total of 84 indicators in seven functions were selected as factors to evaluate the strength of the financial function. The scores for each indicator within the Finance function were averaged to create scores for indicator groups, and these scores were then combined to generate

function specific rankings. The GPCI-Financial Centers Comprehensive Ranking was created by adding the Finance function scores to the GPCI scores for the six functions. The target cities were the same as the 48 cities covered by the GPCI.

PCIの6分野70指標に、金融分野の力を
 評価する要素として、4指標グループ14

指標を加えることで、合計7分野84指標を選定した。金融分野の各指標をスコア化し平均したものを指標グループのスコアとして、さらにそれらを合算して金融分野別ランキングを作成した。GPCI-Financial Centers総合ランキングは、GPCIの6分野のスコアに金融分野のスコアを合算し作成した。対象都市は、GPCI対象48都市と同様とした。

By adding the financial function to the six functions of evaluation in the Global Power City Index (GPCI) that assess the overall strength of cities, it evaluates both the overall strength of the city and its specialized financial strength in a multifaceted manner.

都市の総合力を評価しているGPCIの6分野に金融分野を加えることで、都市の総合力および金融に特化した力の両面を複眼的に評価している。
